Ai Brief Social Media Marketing Plan

1. Objective

We are launching a book and want to build strong awareness, curiosity, and engagement around it.

Goals:

- Spark curiosity and emotional connection with the book through short, high quality, organic style videos.
- Drive consistent traffic to the book's website.
- Build and manage social media presence across all major platforms.
- Improve SEO for the website to capture organic discovery and long-term visibility.
- Establish the book (and author) as a thought leader in the self growth and leadership space.

2. Core Idea

- Use **2–3 powerful lines** from the book as the backbone for concept based video content.
- Videos should feel authentic, realistic, and relatable, not overproduced ads.
- Content must **resonate emotionally, inspire reflection, and be highly shareable**.

Sample Video Styles:

- A narrator reading a line with symbolic/visual storytelling.
- Relatable short reels where people act out or mouth the line.
- Animated typography reels with music.
- User generated content style, everyday people connecting with the line.

- Looking for a **long-term partnership** beyond the launch if results are strong.
